Customer Information: Material Price Surcharge Effective May 1, 2026

Dear Customers,

the persistently strained geopolitical situation, in particular the Iran conflict and the related developments in the Strait of Hormuz, continues to pose significant challenges for all parties involved. As a plastics processing company, we are already facing substantially increased procurement costs for raw materials.

For this reason, we are compelled to introduce a temporary surcharge:

**Effective May 1, 2026, we will apply a surcharge of
7.5% to the currently valid price list.**

We kindly ask for your understanding that this measure is necessary in order to maintain our established standards of quality and reliability of supply. We continuously monitor cost developments and reserve the right to review our pricing on a regular basis and, where necessary, to adjust it at short notice.

Please note that, in the interest of our longstanding and cooperative business relationship, we are only passing on a portion of the increased costs incurred.

Should you have any questions, please do not hesitate to contact us. We thank you for your understanding and for your continued trust in our company.

Yours sincerely,

Christian Schmidt
